69. (Canceled)

70. (Canceled)

71. (Previously Presented) A method of making a lid for a casket comprising:

- providing tooling configured to produce a one-piece, unitary casket lid portion having a crown and a pie;
- providing settable material from which to mold the lid portion;
- molding the settable material with the tooling;
- permitting the settable material to set thereby producing a one-piece, unitary casket lid portion having a crown and a pie; and
- adhering wood veneer to the crown and the pie.

72. (Previously Presented) A method of making a lid for a casket comprising:

- providing tooling configured to produce a one-piece, unitary casket lid portion having a crown and a pie;
- providing settable material from which to mold the lid portion;

Continuation Application Serial No. 10/827,227
Amendment dated February 9, 2006
Reply to Office Action dated August 9, 2006

molding the settable material with the tooling;
permitting the settable material to set thereby producing a one-piece,
unitary casket lid portion having a crown and a pie; and
securing wood veneer to the crown and the pie.

73. (Previously Presented) A method of making a lid for a casket
comprising:

providing tooling configured to produce a one-piece, unitary casket lid
portion having a crown and a pie;
providing settable material from which to mold the lid portion;
molding the settable material with the tooling;
permitting the settable material to set thereby producing a one-piece,
unitary casket lid portion having a crown and a pie; and
affixing wood veneer to the crown and the pie.

74. (Previously Presented) A method of making a lid for a casket
comprising:

providing tooling configured to produce a one-piece, unitary casket lid
portion having a crown and a pie;

Continuation Application Serial No. 10/827,227
Amendment dated February 9, 2006
Reply to Office Action dated August 9, 2006

providing settable material from which to mold the lid portion;
molding the settable material with the tooling;
permitting the settable material to set thereby producing a one-piece,
unitary casket lid portion having a crown and a pie; and
attaching wood veneer to the crown and the pie.

75. (Previously Presented) A method of making a lid for a casket
comprising:

providing tooling configured to produce a one-piece, unitary casket lid
portion having a crown and a pie;
providing settable material from which to mold the lid portion;
molding the settable material with the tooling; and
adhering wood veneer to the crown and the pie thereby producing a one-
piece, unitary casket lid portion having a crown and a pie with wood veneer adhered
thereto.

76. (Previously Presented) A method of making a lid for a casket
comprising:

Continuation Application Serial No. 10/827,227
Amendment dated February 9, 2006
Reply to Office Action dated August 9, 2006

providing tooling configured to produce a one-piece, unitary casket lid portion having a crown and a pie;
providing settable material from which to mold the lid portion;
molding the settable material with the tooling; and
securing wood veneer to the crown and the pie thereby producing a one-piece, unitary casket lid portion having a crown and a pie with wood veneer secured thereto.

77. (Previously Presented) A method of making a lid for a casket comprising:
providing tooling configured to produce a one-piece, unitary casket lid portion having a crown and a pie;
providing settable material from which to mold the lid portion;
molding the settable material with the tooling; and
affixing wood veneer to the crown and the pie thereby producing a one-piece, unitary casket lid portion having a crown and a pie with wood veneer affixed thereto.

Continuation Application Serial No. 10/827,227
Amendment dated February 9, 2006
Reply to Office Action dated August 9, 2006

78. (Previously Presented) A method of making a lid for a casket comprising:

- providing tooling configured to produce a one-piece, unitary casket lid portion having a crown and a pie;
- providing settable material from which to mold the lid portion;
- molding the settable material with the tooling; and
- attaching wood veneer to the crown and the pie thereby producing a one-piece, unitary casket lid portion having a crown and a pie with wood veneer attached thereto.
